# RECYCLIST PROGRAM TRACKER

Routeware

Less spreadsheets. More collaboration.

EASY-TO-USE SOFTWARE PLATFORM FOR CALIFORNIA'S SB 1383, AB 341, AND, AB 1826

MEET CALIFORNIA'S MANDATES

- **EAR-Ready stats and reports**
- Identify which businesses you need to be monitoring for local ordinances, **AB 341** and **AB 1826,** and track their compliance statuses.
- **Meet all SB 1383 recordkeeping and reporting requirements** for jurisdictions in one central location for your implementation record.

GET A GRIP ON SERVICE DATA

- **We process, clean, and import your service data** to give you visibility into service changes.
- Our system makes data easy to understand so you can **get all the insight you need into business and multi-family waste streams.**

COLLABORATIVE RECORDKEEPING

- **Coordinate a multi-agency, multi-person outreach team:** all businesses and multi-family accounts are conveniently in one place.

OUTREACH ON THE GO

- **Cloud-based data syncing** – the data you enter is visible in real-time to everyone involved in an outreach effort.
- **Task scheduling** – coordinate and delegate all your team's activities in one place.
- **Mobile app for field visits and route reviews –** enter data straight into the system.

VISUALIZE YOUR DATA

- **Our dashboard gives you an at-a-glance summary** to help you assess your progress and plan your next move.
- **Generate automatic, up-to-date charts and graphs** that allow you to see the big picture and track outcomes over time.
- **Interactive waste-generation-based maps** allow you to see where businesses and multi-family properties are clustered and to plan targeted and efficient outreach.

Take the next step toward improving your recycling operations.
